### Defrost

The uniform wave emissions preserve the food's texture and colour for quick and even defrosting. Also preserves the original nutrients, taste & colour of any kind of food.

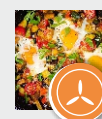

### CrispFry

Golden, healthy frying with no additional oil with the uniform microwave distribution of the 3D Technology.

### Crisp

From bread and cake to fish and cereal; always unbeatable crispness. A special function that evenly browns food from top to bottom, thanks to the 3D Technology

### Convection

The convection fan provides an additional source of heat. In this mode, the fan automatically comes on to improve air circulation within the oven and creates a perfect and evenly cooked dish.

Rotisserie

The rotisserie function allows your food to be perfectly grilled from all sides. This ensures the best roasting and grilling, and absolute deliciousness.

Energy Efficient

With an 'A' Energy rating, provides excellent efficiency, ensuring lower consumption and saving you money on your energy bills.

Child Safety Lock

Your oven/microwave is fitted with a special Child lock program, which enables the oven to be "locked" so that children or anyone unfamiliar with it cannot operate it accidentally.

Jet Defrost

Dual Emission System enables 7 times\* faster defrosting than any other microwave oven. All you have to do is select the food type, Set the weight and press start.

3D Cooking

The Dual Emission System emits microwaves through two inlets inside the cavity resulting in even microwave distribution delivering perfect cooking results every single time. Dual Emission System combined with unique reflector door ensures best-in-class microwave emission inside the cavity
